Restorative Cordial BLOOD RENOVATOR.

Is precisely what its name indicates, for, while pleasant to the taste, it is revivifying, exhibitarity, and strength enting to the vital powers. It also revivifies, reinstates and renews the blood in all its original purity, and thus restores and renders the system invulnerable to attacks of disease. It is the only preparation ever offered to the world in a popular form so as to be within the reach of all. So chemically and skillfully combined so as to be the most powerful tonic, and yet so perfectly adapted to as to act in perfect accordance with the laws of nature, and hence south the weakout storach, and tone up the digentive organs, and allay all nerveus and other irritation. It is also perfectly exhibitating in its effects, and yet is never followed by lassitude or depression of spirits. It is composed entirely of vegetables and those thoroughly combining powerful tonic and southing properties, and consequently can never injure. Such a remedy has long been felt to be a desideratum in the medical world, both by the thoroughly sailed in medical science, and also by all who have su, ered from debility for it needs no medical skill or knowledge even to see that debility follows all attacks of disease, and lays the unguarded system open to the attacks of many of the most days on the wholesay humanity is con-Female Weakness and Irregularities. Difficulty of Freathing, and indeed we might commerate many more still, but we have space only to say, it will not only care the debility following Chills and Fever, but prevent all attacks arising from Mins mathe Influences, and cure the diseases at once, it already attacked. And as it acts directly and persistently upon the billiary system, arousing the Liver to action, promoting, in fact, all the excretions and secretions of the system, it will infallibly prevent any delirious consequences following upon change of climate and water, bence all travelerschould have a bottle with them, and all the stay of the stay. dences of towing upon change of chimae and water, bence all travelerushould have a bottle with them, and all abould take a table spoonful at least before esting. As it prevents costiveness, strengthens the digestive or gaus, it should be in the hands of all persons of sedentary habits, students, ministers, literary men. And all ladies not accustomed to muchout door exercise should always use it. If they will they will find an agreeable pleasant and efficient remedy against these ills which rob them of their beauty; for beauty canno exist without health, and health cannot exist while ite above frequentiates continue. Then again the Cordial, isa perfect Mother's Relief. Taken a month or two before the final trial she will pass the dreadful period with perfect ease and safety. There is no mistake about, this Cordial is all we claim for it. Mothers, try it! And to you we appeal to detect the illness or decline not only of your appeal to detect the illness or decline not only of your daughters before it is too late, but also your soms and bushands, for while the former, from false delicacy, often husbands, for while the former, from false delicacy, often goes down to a premature grave rather than let their condition be known in time, the latter are often so mixed up with the excitement of business that if it were notice you they too would travelin the same downward path, until too late to arrest their facal fall. The attention of the enterprising and industrious portion of he community is directed to the following statements and lib ILLINOIS GENTRAL RAILROAD COMPANY. which, as they will perceive, will enable them, by proper ener gy, perseverance and industry, to provide comfortable a manent homes for themselves and families, with, compa BEERSHEBA SPRINGS LANDS OF ILLINOIS. No State in the Valley of the Mississippi offers so great a inducement to the settler as the State or Illinois. There is n portion of the world where all of the conditions of climate an soil so admirably combine to produce those two great staple Cons and Whyat, as the Frairies of Illinois.

RICH ROLLING PRAIRIE LANDS. The deep rich loam of the prairies is cultivated with such won-derful facility that the farmers of the Eastern and Middle States are moving to Illinois in great numbers. The area of Illinois is about equal to that of England, and the soil is so rich that it will support twenty millions of people. EASTERN AND SOUTHERN MARKETS. These lands are configuous to a railroad 700 miles in length, which connects with other roads, and navigable lakes and rivers, thus affording an unbroken communication with the Eastern

and Southern markets. APPLICATION OF CAPITAL Thus far capital and labor have been applied to developing the soil; the great resources of the State in onal and from are almost unatouched. The invariable rule that the mechanic arts flourish best where food and fuel are cheapest, will follow at an early day in Illinois, and in the course of the next tan years the natural laws and necessities of the case warrant the belief that at least five hundred thousand people will be engaged in the State of Illinois in the various manufacturing employments. RAILEGAD SYSTEM OF ILLINOIS. Over \$100,000,000 of private capital have been expended on the railroad system of Illinois. Inasmuch as part of the in-come from several of these works, with a valuable public fund in lands, go to dimnish the State Expenses, the TAXES ARE LIGHT, and must, consequently, every day decrease.

THE STATE DEST. The State Debt is only \$10,103,298 14, and within the last that in ten years it will bee PRESENT POPULATION. The State is rapidly filling up with population; 868,026 pe ons having been added since 1830, making the present popul on 1,719,495—a ratio of 182 per cent in 18 years. At the Man and Mortar, on Market street, opposits AGRICULTURAL PRODUCTS.

The Agricultural Products of Illinois are greater than those of any other State. The Products sert out during the past year exceeded 1.500,000 tans. The wheat crop of 1860 approaches at 000,000 of bushels, while the corn crop yields not less than Drugs, Medicines and Chemicals, 140,000,000 bushels. PERTILITY OF BOIL. PAINTS, OILS, VARNISHES, DYESTUFFS Nowhere can the industrious farmer secure such immediate r suits for his labor as upon these prairie soils, they being con posed of a deep, rich loam, the fertility of which is unsurpasser WINDOW GLASS, GLASS WARE,
